JUNIOR LEADERSHIP DEVELOPMENT CAMPS

Junior Leadership Development Academy is designed for skill, leadership, and spiritual development of boys as they progress toward Christian manhood. The camps are designed to challenge boys mentally, physically, and spiritually all while having fun with fellow Royal Rangers from throughout New England. They will learn to work together in a group using the patrol system and will learn what it means to lead as well as to follow as they work to finish merits and camp specific tasks.

Merit Camp: Start off your JLDA adventure at Merit Camp. You will earn different merits and learn how the patrol system helps you to work together and get things done. This camp is geared toward young and adventurous boys. In addition to earning merits in the great outdoors, you will have swim time and fun activities each day.

Backpacking Action Camp (BAC): This is the most physically challenging of the JLDA camps. You will hike 25 miles in the White Mountains of New Hampshire and learn backpacking skills from a backpacking expert. This camp will prepare you for a lifetime of miles on the trails with memories that will last a lifetime.

Junior Training Camp (JTC) - JTC is the first official camp on the path to earn your saber. You will gain greater insight into leadership and using the patrol system while working on challenging and fun projects with your fellow campers. Campers will be challenged spiritually and gain a greater understanding of who God is. Fun at the beach and other activities with your patrol round out the days you will spend at JTC.

Survival Action Camp (SAC): Survival Action Camp will teach you survival skills as you simulate getting lost in the wilderness and ultimately earn your survival merit with a survival expert. You will learn how to make and sleep in a survival shelter as well as learn foraging and survival skills. Graduates of this camp will know what it means to survive, not just know about survival.

Advanced Junior Training Camp (AJTC) - AJTC is the second required camp on your path to earn your saber. In this camp you will work on greater challenges that build on the lessons learned in Merit Camp and Junior Training Camp. The use of the Patrol system is greatly emphasized in this camp in order to complete the required tasks. The sense of accomplishment in this camp is the pinnacle of camp achievement.

Shooting Sports Action Camp (SSAC): Shooting Sports Action camp will teach you proper handling of firearms in a beautiful camp setting. You will earn the NRA smallbore rifle shooting merit and the black powder shooting merit. You will use the patrol system to make friends and encourage each other throughout your time at camp. Swim time and shotgun clay shooting round out the camp.

Canoe Action Camp (CAC): What better way to spend summer days than on the lake at Ranger Camp. In CAC you will learn proper flatwater canoeing with your fellow campers and end the week with a canoe camping adventure.

Please see information sheet for further information and individual camp age and merit requirements
